CHAMP 3rd Party Chronic Homeless Verification

Instructions:

This verification must be completed by a referring outreach worker or homeless service provider with direct knowledge of the client's situation. If an agency provides both outreach/homeless services and PSH services, verification may not be provided by PSH staff who do not have direct knowledge, but may be provided by staff affiliated with outreach/homeless services.

An individual is defined by HUD as "Chronically Homeless" if they have a disability and have lived in a shelter, safe haven, or place not meant for human habitation for 12 continuous months or for 4 separate occasions in the last three years that total 12 months. Instances when the individual resided or is currently residing in an institutional care facility (e.g. jail, hospital, detox) will not count as a break in homelessness as long as the stay is less than 90 days and the individual was homeless before entering the facility. A family with an adult/minor head of household who meets the above mentioned criteria may also be considered chronically homeless, despite changes in family composition (unless the chronically homeless head of household leaves the family).

Documentation verifying the client's homeless and disability status must meet HUD criteria and be attached to this document in order for it to be considered complete. Completed packet including attachments should be scanned as a single file and attached to client's HMIS CHAMP profile.

HUD has an order of priority for the source of verifying a person's homeless status:

1. HMIS database – records from HMIS must show stay in emergency shelter or contacts from street outreach workers; meals or other services do not verify homeless status.
2. Written observation by an outreach worker – written observations from outreach workers that are not recorded in HMIS must include a description of the conditions where the individual or head of household is currently living and dates that observations were made.
3. Written observation by community member/service provider –
    a. community members who can verify homelessness include shopkeepers, building owners, or neighborhood residents; observations must include specific months that the client was observed and a description of the setting (case managers may document a conversation with a community member including this information if the community member is unwilling to provide written documentation)
    b. housing or service providers who can verify homelessness include law enforcement, healthcare professionals, educators, or others who have encountered an individual experiencing homelessness while in their official professional capacity; documentation from service providers may only count as 3rd party for specific months when they physically encountered the individual
4. Self-certification – must be a written description of the literal homeless location where the individual resided, including dates, and must be signed by the individual. If using self-certification, the case manager must also document steps taken to get verification from sources 1-3 before relying on self-certification.

HUD does not require that every day of a client's homelessness be documented. A single encounter that can be documented by one of the above sources is sufficient to count the entire month **unless** there is clear evidence of a break. A break is defined as any 7 nights or longer in a setting other than shelter, streets, or an institution. Stays in an institution of 90 days or longer are also considered a break. (ex. A client who has one night in shelter documented in HMIS and reports being on the streets the rest of the time can count the entire month as homeless. A client who has 2 weeks documented in HMIS in emergency shelter and 2 weeks documented in HMIS in transitional shelter can only count 2 weeks toward chronic homeless time.)

More information on documentation can be found at HUD exchange.

Part 3 Disability Verification

The term "homeless individual with a disability" means an individual who is homeless, as defined in section 103 of the McKinney-Vento Homeless Assistance Act, and has a disability that

- *Is expected to be long-continuing or of indefinite duration;*
  - *Substantially impedes the individual's ability to live independently;*
  - *Could be improved by the provision of more suitable housing conditions; and*
  - *Is a physical, mental, or emotional impairment, including an impairment caused by alcohol or drug abuse, post-traumatic stress disorder, or brain injury;*
- *Is a developmental disability, as defined in section 102 of the Developmental Disabilities Assistance and Bill of Rights Act of 2000 (42 U.S.C. 15002); or*
- *Is the disease of acquired immunodeficiency syndrome or any condition arising from the etiologic agency for acquired immunodeficiency syndrome.*

The head of household has been diagnosed with one or more of the following:

Substance use disorder, mental illness, developmental disability, post-traumatic stress disorder, cognitive impairments resulting from brain injury, chronic illness or disability.

☐ Yes

☐No
